

Amnesia Haze Auto

The World's Favorite Haze...

- **Powerful high.** The perfect effect for those looking for a strong Sativa head rush that will leave you flying all day long.
- **Mighty yielder.** Due to its size, you can expect up to 650gr/m²!
- **Full-blooded Sativa heritage.** Recommended especially for hot climates, where you will see her really take flight.
- **One of the tallest autos.** This haze variety can grow up to 150cm so make sure you have enough space available.
- **A better version of the classic!** Our improved version of this classic strain comes with a floral smell with citrusy undertones that will take old-school growers back to the old days.

A huge yielding, Haze dominant hybrid that is ready to chop in just 70 days. She will grow vigorously and flower expressing her full-blooded Sativa heritage, so is better suited for growers with experience and plenty of growing space. Her potency can hit up to 22% THC We strongly recommend this strain to growers living in a hot climate growing outdoors, where this autoflowering hybrid will really take off in height and produce enormous yields. Also for indoor, for growers who are looking for big productive plants.

Bud description

The buds from Amnesia Haze Auto are much more condensed than normal haze varieties, and they can be described as thick, with hard calyxes packed together. Capped in resin with bright orange hairs, her structure is both chunky and large-sized. The aroma is a mixture of citrus, orange, and tangerine that has a floral background.

Smoke report

The high that Amnesia Haze Auto creates will be a soaring, cerebral roller coaster that stimulates all the senses. Upon smoking, users will feel focused and highly motivated, however that energized feeling will later switch to a more lethargic, relaxed mindset that is perfect for promoting the inner philosopher. Great for musicians, writers, reading, gaming or just hanging out at home with friends.

Plant Appearance

Some plants can grow as tall as 150cm meaning Original Auto Amnesia Haze is one of the taller autoflowering strains available. She will grow with large spacing between her internodes, and over the flowering period will develop a bushy, yet tall growth structure typical of a Sativa dominant strain. She will glisten with trichomes and throw out large-sized bright orange hairy pistils, and during the final weeks prior to harvest will frost out covering all surrounding leaves. Once ready to harvest, this lady will have a tall and chunky appearance.

Grow Tips

This autoflowering strain is a good choice for growers who have experience with challenging Sativa and Haze varieties, and a good understanding of plant training, using techniques such as L.S.T, or Sea of Green are recommended to get the most out of this monster producer. During flowering, the buds of this lady are large and dense, meaning when flowering add staking and plant support to prevent branches from hanging down due to excessive production.

Flavor

A truly unique blend of orange citrus with floral overtones on the inhale, and turns to a deeper, citrus dominant flavor on the exhale. Amnesia Haze Auto delivers a long-lasting flavor that tastes identical to her aroma, which is what makes her everybody's new favorite Haze.
